Flavour alone no longer decides our choice in foodstuffs. To-day economy is the rule and everything we eat must promote energy and health. Because it is rich in proteins, calcium and other health-giving contents, wise housewives choose Galbraith's Bread—the crispy, nutty-flavoured bread that does you good. Try our famous Milk Pan or Sliced Wrapped Pan to-day.

TO THE PUBLIC

War-time production difficulties are many. A number of raw materials cannot now be obtained and, as our stocks become exhausted, goods made from these materials have had to be withdrawn. Nevertheless, within the limits imposed by war-time conditions, we still continue to manufacture a range of goods containing many of the most popular of our lines without sacrificing the STANDARD OF QUALITY.

TABLES to be used with the Calendar, for finding the times of the Rising and Setting of the Sun and Moon in any part of Ireland.

METHOD OF USING THE FOLLOWING TABLES (I AND II).

GENERAL CALENDAR from 1890 to 1960.

Table with columns: Years, Months, Sundays. Grid showing day of the week for each year from 1890 to 1960.

EXPLANATION.—To find the day of the week answering to May 4, 1943... Above 1948 in the left-hand table, is found the Dominical or Sunday Letter C; and over C, contiguous to May, in the right-hand table, is the figure 2, the date of Sunday; the 4th, therefore, is Tuesday.

The converse of this operation, namely, to find the day of the month corresponding to the day of the week, is too evident to require illustration.

Table showing the Number of Days from any Day in one month to the same in any other Month.

Table with columns: FROM, TO, Jan, Feb, March, April, May, June, July, Aug, Sept, Oct, Nov, Dec. Grid showing day counts between months.

EXAMPLE.—To find the number of days from the 15th June to the 15th March following... Find June in the first column, and then in the line with that under March, is 273 days...

POLICE TELEGRAPHIC CODE.

The following list of Code words which have been adapted to the phrases most frequently used in the transmission of telegraph messages relating to police business, has been compiled with a view of effecting a saving in the cost of this branch of the service. It is not expected that the Code can be utilised for every class of telegrams, but the intention is, as far as practicable, to give the fullest description of persons who are wanted, etc., at a minimum cost, and the advantages are more apparent where a large number of telegrams have to be transmitted in cases of emergency. It will, no doubt, be found necessary to revise or make additions to the Code annually, and any suggestions to this effect may be addressed to the Editor, and will receive careful consideration.

The Phrases are to be inserted in the Telegrams in the following order, and to prevent confusion this should be strictly adhered to.

1. Offence, or reason of Message.
2. Person wanted.
3. Age, height, and build (5 figures).
4. Complexion, hair, eyes, whiskers and moustache, and shape of face (5 figures)
5. Peculiarities and distinctive marks (5 figures).
6. Description of clothing (5 figures).
7. Where likely to be found.
8. Instructions.
9. Rank of Officer sending Wire.

Description of Medal.

SOLID GOLD:—Suspended from solid gold bar by silk tricolour ribbon.

DESIGN (Front)—Gárda Síochána Badge. Four panels: top panel bears the inscription, "Scott Medal"; the lower panel, "For Valor"; on the left and right are the American Eagle and the Irish Harp and Sunburst. On the back of the medal are represented the Arms of the Four Provinces, with the inscription, "Gárda Síochána na h-Eireann." (Designed by Mr. T. E. Maxwell, Dublin.)

The Donor also graciously presented a 1,000 Dollar Gold Bond, the interest from which is to provide a Gold Medal for each year in perpetuity, and in addition, in 1925, he presented further funds sufficient to defray the cost of additional medals each year.

The medals are awarded annually to the members of An Gárda who, in the opinion of the Commissioner, perform the greatest individual acts of valour during each year.

The first Gold Medal was struck for the year 1923, and in respect of the following years Medals were awarded as follows.

GÁRDA SÍOCHÁNA REPRESENTATIVE BODIES.

The *Gárda Síochána* (Representative Bodies) Regulations, 1927, were made by the Minister for Justice for the purpose of enabling members of the Force to consider and bring to the notice of the Commissioner, and of the Minister for Justice matters affecting their welfare and efficiency, other than questions of discipline and promotion affecting individuals.

The Regulations provide for:—

(1) A Representative Body for Chief Superintendents and Superintendents.

(2) A Representative Body for Inspectors, Station Sergeants and Sergeants.

(3) A Representative Body for Guards, consisting of representatives elected by the members of the ranks stated.

The Representative Bodies elected hold office for two years and the elections take place every alternate year commencing in the month of January, 1928.

For the purpose of electing members to act as representatives of the various ranks on the Representative Bodies, Éire is divided into four areas, viz.:—

(1) *Leinster Area*: comprising the Province of Leinster, the Counties of Monaghan and Cavan, and members of the Force stationed at Headquarters and Depot, but exclusive of the Dublin Metropolitan Area.

(2) *Connaught Area*: comprising the Province of Connaught, and County of Donegal.

(3) *Munster Area*: comprising the Province of Munster and

(4) *Dublin Metropolitan Area*.

The Representative Body for Chief Superintendents and Superintendents consists of one Chief Superintendent and four Superintendents. The former is elected by the Chief Superintendents stationed in Éire, and one Superintendent is elected by the Superintendents stationed in each area. The Representative Body for Inspectors, Station Sergeants, and Sergeants consists of two Inspectors, one Station Sergeant, and four Sergeants.

One Inspector is elected by the Inspectors stationed in the Dublin Metropolitan Area, and one Inspector is elected by the Inspectors stationed outside the Dublin Metropolitan Area.

The Station Sergeants stationed in the Dublin Metropolitan Area elect one of their number, and one Sergeant is elected by the Sergeants stationed in each area.

The Representative Body for Guards consists of eight Guards, two Guards to be elected by the Guards stationed in each area.

Each of the Representative Bodies has power to co-opt, if considered necessary, two additional members of the ranks represented.

The Ordinary Meetings of the Representative Bodies are held half-yearly, but a Special Meeting may be convened at any time by the Commissioner, should he consider such a course necessary.

INCOME TAX, 1942-43.

1. The income of all members of An Garda Síochána is liable to assessment for Income Tax, and consequently each member of the Garda must furnish, early in the financial year, a declaration of his *total* income from all sources, and claim the relief to which he is entitled. Form 38A, for this purpose, will be issued each year with full instructions. It is essential that the Reg. No. should be inserted in the space provided for the purpose.

It should be possible for each member of An Garda—knowing the amount of his pay and allowances—to calculate the amount of Income Tax payable by him each year. For this purpose the following notes may be of assistance.

2. In these notes the expression "Assessable Income" means, in the case of earned income, the amount of such income as computed for Income Tax purposes, after deducting the allowance mentioned in paragraph 3 below, and in the case of any other income the actual amount of such income. The expression "Taxable Income" means that part of the income upon which tax is actually charged, i.e., the total assessable income less the various deductions to which the claimant may be entitled.

3. Earned Income Allowance. In order to arrive at the assessable income, one-fifth of so much of the income as does not exceed £300 will be allowed. This allowance will be given irrespective of the amount of the total income, but is not to exceed £300 for any one individual.

4. Total Exemption. Exemption from tax may be claimed where the total assessable income does not exceed £120, or, in the case of an individual whose wife is living with him, £220. (Under certain conditions the extended allowance of £220 applies also in the case of a taxpayer, who proves that his wife is wholly maintained by him, but is not living with him.)

5. Personal Allowance. A personal Allowance may be claimed of £120, or of £220 in the case of an individual whose wife is living with him. (See also note above, paragraph 4.)

6. Wife's Earned Income. Where a taxpayer's total income includes any earned income of his wife, the personal allowance of £220 is to be increased by a sum equal to nine-tenths of the amount of such earned income, subject to a maximum additional allowance of £45.

7. Deduction for a Widower's Housekeeper. A deduction of £45 may be claimed under certain conditions by a widower who has living with him a female relative of his or of his deceased wife, for the purpose of having the charge and care of any child or adopted child of his, in respect of whom the deduction for children is given. (See 9 below.)

8. Deduction in respect of Widowed Mother, etc., taking charge of children. A deduction of £45 may be claimed under certain conditions by an unmarried person who has living with him, and maintains at his own expense, either his mother or some other female relative for the purpose of having the charge and care of any brother or sister of his in respect of whom the deduction for children is given.

9. Deduction for Children. A deduction may be claimed in respect of each child, step-child or adopted child living on 6th April, 1947, who was under the age of sixteen years on that date, or who, if over that age, is receiving full-time instruction at any university, college, school, or other educational establishment. The deduction allowable is £60 in respect of each child.

10. Deduction in respect of Dependent Relatives. A deduction of £25 may be claimed under certain conditions in respect of a dependent relative whom the taxpayer maintains at his own expense.

11. The deductions indicated at paragraphs 5 to 10 above may be claimed from the total assessable income in order to arrive at the taxable income. The deductions may be claimed irrespective of the amount of the taxpayer's total income.

12. Rates of Tax Chargeable on Taxable Income. The first £100 of the taxable income of an individual is chargeable at half the standard rate of tax, i.e., for the year ending 5th April, 1943, at 3/9 in the £. The remainder of the taxable income is chargeable at the standard rate, i.e., at 7/6 in the £.

13. Relief in respect of Life Assurance Premiums. Under certain conditions allowance will be made in respect of Premiums paid for Life Assurance or for Contracts for Deferred Annuities. Full details regarding the conditions are given on the Form 38A.

14. In all cases where parties are married, the incomes of both husband and wife are to be included, notwithstanding any settlement.

YOUR DUTY

is to see your body gets sufficient supply of Proteins and Vitamins, your physique is daily in need of these—you cannot stand the strain of the present age without them, and it's no use trying to make up in one meal or in one day the deficiency of weeks, months, perhaps years by taking large quantities. Every Doctor will tell you it is the right amount—a little regularly every day—that gives lasting stamina to bone, muscle, and brain, the answer is:—

YOUR GROCER

is doing his best—
but he has many and
trying difficulties—

BE PATIENT WITH HIM!

He is as anxious for your custom as you are for his supplies but if he cannot give you the normal quota of your favourite

it is because supplies are generally short.

He is a genuine fellow who does his utmost to satisfy all his customers by issuing his stock in fair proportion and we do our best to help him.

food must be rich in
NOURISHMENT

Flavour alone no longer decides our choice in foodstuffs. To-day economy is the rule and everything we eat must promote energy and health. Because it is rich in proteins, calcium and other health-giving contents, wise housewives choose Galbraith's Bread—the crispy, nutty-flavoured bread that does you good. In the lead...

Kennedy's bread, the family favourite, is first choice with Dublin housewives for the excellent flavour, crisp crust, fine texture and uniform baking; baked in the most modern plant, it is all that good bread should be. For these reasons it always has been, and still is to-day, in the lead.

Living in Luxury

One of the things you never realise about electricity is, that although it is the power which is selected to light, heat and cook in the finest homes and most expensive hotels in the world, it is available to nearly every house in Ireland, at a price which compares more than favourably with any other source of light or power. Electricity is our national power here in Ireland, and when we use it, not only are we availing of the finest known method of providing light and heat, but we are supporting one of Ireland's great national projects.

The L C F label has been the hallmark of high quality in Irish clothing for over a century.

Shannowear

To the vast majority of better-dressed men in Ireland to-day the L C F brand names, SHANNOWEAR and SHANNOMAC are synonymous with ready-for-wear clothes of outstanding appearance and value.

Shannomac

For through the experience of wearing them has come the knowledge that L C F clothes offer more—in style, in craftsmanship, and in longer wear. And for less, too, in the long run.
