<p>Theme 1 The historic core</p>	<p>Theme 2 The Bay</p>	<p>Theme 3 The River</p>	<p>Theme 4 The gateways & connections</p>
<p>Objective: "Create an integrated high-quality multi-functional public place with a focus on improving aesthetics; ease of movement; biodiversity credentials; amenity; recreational potential and civic inclusiveness; whilst acknowledging and strengthening the historic significance, and socio-economic function of this part of the town."</p>	<p>Objective: "Enhance the western edge of the town centre to provide an attractive, multi-functional and contemporary space of various uses to make the best of underdeveloped and vacant lands, also connecting An Clochán Liath (Dungloe) Town Centre with its waterfront, creating a thriving and unique 'seaside' town."</p>	<p>Objective: "Provide placemaking and regeneration that enhances the river's biodiversity; protects and improves its attractiveness; creates opportunities for a range of uses and activity; and helps to better connect the town centre to this important natural asset which transverse it."</p>	<p>Objective: "Create appealing gateways from all approaches to/exits from the town, enhance connectivity to and from the town centre to the suburban/semi-rural housing at the edges of the settlement, better accommodating all road users."</p>
