

Ballybofey / Stranorlar Phase III

Commencing in late 2004, Phase III of Environmental Improvement works were carried out from the entrance to the GAA playing fields to the Finn Bridge. The works effectively linked the two previous phases of works in Ballybofey and provided for the undergrounding of overhead cables, provision of decorative lighting, provision of decorative paving, stone walling, street furniture, provision of bollards and landscaping. The works were completed in early 2005.
