

## What do your local waters mean to you?

The Waters and Communities Office are hosting meetings in the coming weeks to discuss the management of the natural waters of County Donegal. If you are interested in water quality, angling, heritage, biodiversity, tourism or amenity/recreational use of your local waters; then this is your opportunity to share your knowledge, and input into their management.

Jimmy McVeigh, Community Waters Officer for County Donegal will present information on the latest **draft River Basin Management Plan for Ireland 2018 – 2021**, along with details of how you can have your say and make a submission on the plan.

There will be refreshments after the meeting and opportunities to network. The times, dates and venues of the meetings are set out below.
