Minutes

Casual Trading Bye-Laws in the Municipal District of Donegal

Mr. Denis Kelly SEP attended and gave a detailed presentation on Casual Trading including the legislation, current Bye-Laws, licensing, designated trading areas, events licences, enforcement and exemptions. Members also noted the designated Casual Trading area at the Carpark at Tullan Strand in Bundoran, now falls under the remit of Donegal County Council (previously Bundoran Town Council). The current Casual Trading Bye-Laws were adopted by the Members in 2004.

Rossnowlagh / Belalt Strand

The issues identified by Members included the impact on the business of smaller traders and the local ratepayers from selling on the beach in ice cream vans, chip vans, horse hire, quad hire, and Vans selling / hiring wet suits and surf boards; the use of quads; the use of jet skis; the cleaning of the beach; that there should be a ban of trading on the beach; that there should be a designated casual trading area located at the car park; that licences

should only be granted for selling of items not available in the local area and that enforcement should become a priority.

Mr. Kelly submitted clarified that there was a specific exemption provided in the existing bye-laws for 'chip vans and ice cream vans' and Sergeant Cornyn explained that with this exemption there was little scope for enforcement. He further advised that An Garda Siochana can enforce the Road Traffic Laws in relation to quads given the beach is a 'public place' and therefore vehicles in use on the beach are subject to motor tax and insurance. He would present a report on the matter to his Superintendent. Sgt Cornyn also sought clarification if 'hiring' came under the definition of 'selling goods' in the Bye-Laws for enforcement purposes.

It was considered that the Council would need to be careful in the consideration of an outright ban on selling given that the matter could incur significant costs in defending potential court action.

The crossover between the Casual Trading laws and the Beach Bye laws was also considered.

Killybegs

Currently no issues are being raised in this area.

Ballyshannon

Again the issues identified in this area were of location, enforcement and the impact on the rate payers in the town. Suggestions improvements included review of existing system of licensing, relocation of trading area to Ballyhanna and adequate enforcement by the Council.

Mr. D Kelly advised Members that the procedure for relocating casual trading areas or amending existing licensing practices would require the full statutory process of reviewing bye-laws which includes public consultation period etc.

Following discussion it was agreed that Denis Kelly would present the matter for consideration to the SPC given the county wide implications under headings to include; allocation of dedicated resources, reconfiguration of areas, crossover between beach and casual trading laws, consultation with relevant stakeholders etc. Sergeant Cornyn agreed that the Gardai would review enforcement of quads being used on beaches. The matter would again be considered by the Municipal District following this.

This concluded the business of the Workshop.

Marketing Plan

A marketing plan has been produced for 2015 which outlines all of the key marketing activity planned for the MalinWaters brand over the coming year. The marketing plan contains a detailed digital marketing strategy which will see the deployment of the latest digital tactics to increase MalinWaters brand awareness and increase business for tourism partners in the regions.

Online Travel Media Campaign

Procurement is underway for the appointment of a travel media and PR agency to engage with travel blog community and deliver a MalinWaters PR campaign to raise brand awareness.

Sail West Project Plan

Following the meeting with Sail West partners in October 2014 and subsequent survey regarding project ideas and regional project needs, it was agreed that a further partner meeting be held in Q1 of 2015 to determine the next steps for the Sail West project. Many funding calls will open in Q1 of 2015 and so it is recommended that partners meet when a more definitive project strategy can be agreed. The Sail West project is likely to develop as a cluster of partners with different needs who will apply for funding via varying channels according to their project aims and objectives.

MalinWaters Website Development

Ongoing SEO work is being carried out on the MalinWaters.com website and content is constantly updated. A detailed list of development requirements has been developed and is currently in the process of procurement. New development work on MalinWaters.com will include a revamp of functionality and content and is expected to be ongoing until March 2015.

Facebook Paid Advertising Campaign

The MalinWaters social media strategy is ongoing with regular updates on the blog, Facebook, Twitter and Pinterest. In addition an investment has been made for paid Facebook advertising which will drive traffic to both Facebook and the MalinWaters.com website through a variety of adverts with marine target audiences.

Sail Scotland Campaign

An extensive online and print campaign to promote MalinWaters has been launched on the new Sail Scotland website and in their magazine. This will promote Donegal as an ideal sailing destination and also highlight the many marine tourism activities available in the county.

Chelsea Magazine Company Ltd

A digital and print advertising campaign is in development with Chelsea Magazine Company Ltd to promote MalinWaters both online and in the magazines of Classic Boat, Sailing Today and Yachts and Yachting with a combined audience of over 67k web, 49k e-mail subscribers and 142k social media followers. This campaign highlights

| | |
|--|--|
| | <p>Donegal as a sailing and marine tourism destination to a wide audience in the UK market.</p> <p>Google Ad Words Campaign The MalinWaters brand will be promoted via a targeted Google Ad Words campaign that will advertise aspects of each of the MalinWaters regions to the marine tourism audience. This campaign will be launched in mid-January.</p> <p>MalinWaters Design Creatives and Video Production To effectively promote MalinWaters online for example via Google Ad Words or YouTube then a suite of professional marketing design creatives is required including new online adverts for the brand which are currently in development and a MalinWaters video which will be produced in the Spring when weather conditions improve. Both will showcase the best of marine tourism resources available in the regions.</p> <p>E-mail Marketing E-mail Marketing is ongoing with a fortnightly e-mail sent out to over 607 subscribers. The subscribe tab that has been added to the MalinWaters Facebook page continues to gather additional subscriptions via social media.</p> <p>Strategic Events Festival and event organisers in the MalinWaters regions of Scotland, Northern Ireland and North West Ireland have been contacted and invited to submit their strategic events proposals for 2015. The deadline for submissions is March 2015 and all submissions will have to be reviewed and approved by Sail West partners prior to any support being offered.</p> <p>Branded Merchandise A selection of branded merchandise for promoting MalinWaters at strategic festivals and events is in production and will be available for promotions in early January 2015.</p> <p>Other Project Opportunities INTERREG V themes are no longer specific to tourism, therefore consideration is being given to other programmes such as Atlantic Area Programme and the NPA (Northern Periphery & Arctic Programme) to facilitate the continuation of Sail West. Funding is very much focused on needs and work is being done to establish the main needs in the marine tourism sector in Donegal and indeed in the Sail West regions. It is likely that the future of Sail West will involve a number of projects with clusters of the original 22 Sail West partners coming together to work on projects that serve the needs of their own regions. The project partnership has always been very strong and partners are keen to work together going forward and will adapt to changes in funding programmes and project consortium structures.</p> |
| <p>Project Targets for the next bi-monthly/quarterly 1 reporting period</p> | <p>Q1 Project Targets Continued promotion of MalinWaters as a marine tourism destination to niche target markets.</p> |
