Hello,

I write to express my concern about the environmental impact of proposed wind farm technology being placed near the coast proximal to Dungloe, Derryloughdruel direction, also as regards fire risk. I lived in Catalonia formerly where I was evacuated from my home due to a fire caused by section of a local Wind turbine falling off. Our peat bog is both highly precious, as a carbon sink amongst countless other benefits, & highly combustible.
Please keep me informed as resident.

Taru Burstall
