The Council respectfully beg to be informed whether they can compel Mulholland to open the drain in his field, which is alleged to have been closed up by him, and which carried off the sewage and surface water from the premises of Wilson, where the Cases of Enteric Fever recently occurred. Inasmuch as no nuisance appears to be on Mulholland's premises?

Wilson having complied with the Order of Council as far as his own property goes.

From L. G. B. dated 7 July 1899. No 38911. 1899.

Sanitary Sub Officers to be required to make frequent inspections of their districts & furnish reports to Council at each meeting giving particulars of work done.

S. S. Officers now furnish sheets showing work performed.

Extract from Dr. Clibbott's Report. Churchill Dispensary District. S. S. Officer inspects District fairly well, but very few reports are made to Medical Officers. Water supply to the village of Churchill is not I think sufficient, only supply is the river, and a well some distance off. Rural District Council should I think take this into consideration.

Manorcunningham Dispensary District S. S. Officer inspects District monthly.

From L. G. B. No 40248: 1899 dated 18 July 1899
 re recent occurrence of Enteric Fever at
 Castlenoyon & the Board request that they may be
 informed whether P. D. Officers draw attention to the
 defective Sanitary Condition of the Premises, prior to
 the outbreak of Fever. If not he should be called
 upon to furnish an explanation in writing as
 to his neglect of duty.

The Board presume the necessary precautions
 have been taken to prevent the spread of the

 precaution as to the spread of the disease in
 above case.

The case was reported by Dr. Walker
 who was in attendance on the patients.

From L. G. B. No 42344: 1899, dated 27 July 1899
 stating that from an entry on Form L. Medical
