

by Sudden Breach.

Condition of a County Road

Councillor James H. O'Rourke referred to a new road in his district. Jack Rowan was the Contractor and got paid  $\frac{2}{3}$  of the amount of his tender, but failed to complete the contract, and that nothing has been done to said road for the past nine years and over 100 households are affected thereby. The Council decided that the only remedy now was for the Councillor for the District to bring forward a petition or motion before Councillor P. D. O'Rourke to have the road repaired for a term of years.

Road Prosecutions

Mr. Steadman, County Surveyor, reported that certain Contractors were neglecting their contracts and as he was unable to make anything further of them he recommended that same be prosecuted at Quarter Sessions.

The Report, with names of Contractors appended, was approved and signed by the Chairman, particulars in each case to be furnished to the Solicitor to the County Council.

Approved,

James H. O'Rourke, Chairman,  
18th April, 1916.
