

## Donegal County Council – Energy Policy

Donegal County Council commits to achieving energy performance improvements throughout all its premises, plant and equipment.

Donegal County Council commits to continual improvement in energy performance by providing a framework for setting and reviewing energy objectives and targets as part of an Energy Management System conforming to ISO 50001.

Donegal County Council will ensure that all information and necessary resources required to achieve these objectives and targets will be made available.

Donegal County Council commits to comply with all applicable legal and other requirements related to energy use, consumption and efficiency.

Donegal County Council supports the purchase of energy efficient products and services and design for energy performance improvements.

Donegal County Council will ensure that any person(s) working for or on its behalf are aware of this Energy Policy and shall communicate internally with regard to its energy performance and Energy Management System.

Donegal County Council commits to regularly review and update as necessary, this Energy Policy.
