

Ballybofey-Stranorlar Regeneration Strategy & Action Plan

The Ballybofey-Stranorlar Regeneration Strategy & Action Plan has been developed by Pasparakis Friel Architects following an extensive consultation process during 2020.

The strategy is broken down into seven primary districts. These districts address a spread of projects across the two towns whilst focusing on key areas of vacancy and dereliction.

A range of project typologies are covered within the districts. Specific project types are proposed within each district however the sites are flexible to accommodate other uses as per the changing market/social/economic/cultural demands that might arise over the course of the next twenty years up to 2040.

All of the proposals outlined within the strategy are concepts. Inclusion of these concepts does not constitute commitment from private landowners. Further detailed analysis is required to determine the viability and feasibility of these concepts.

District Key

- 1 Stranorlar
- 2 Mixed Use Redevelopment
- 3 Mary's Place
- 4 Strategic Opportunity Site
- 5 Pentland Park
- 6 Ballybofey Village
- 7 Drumboe and Linkages
