

31st of May 2022

Dear Sir/Madam

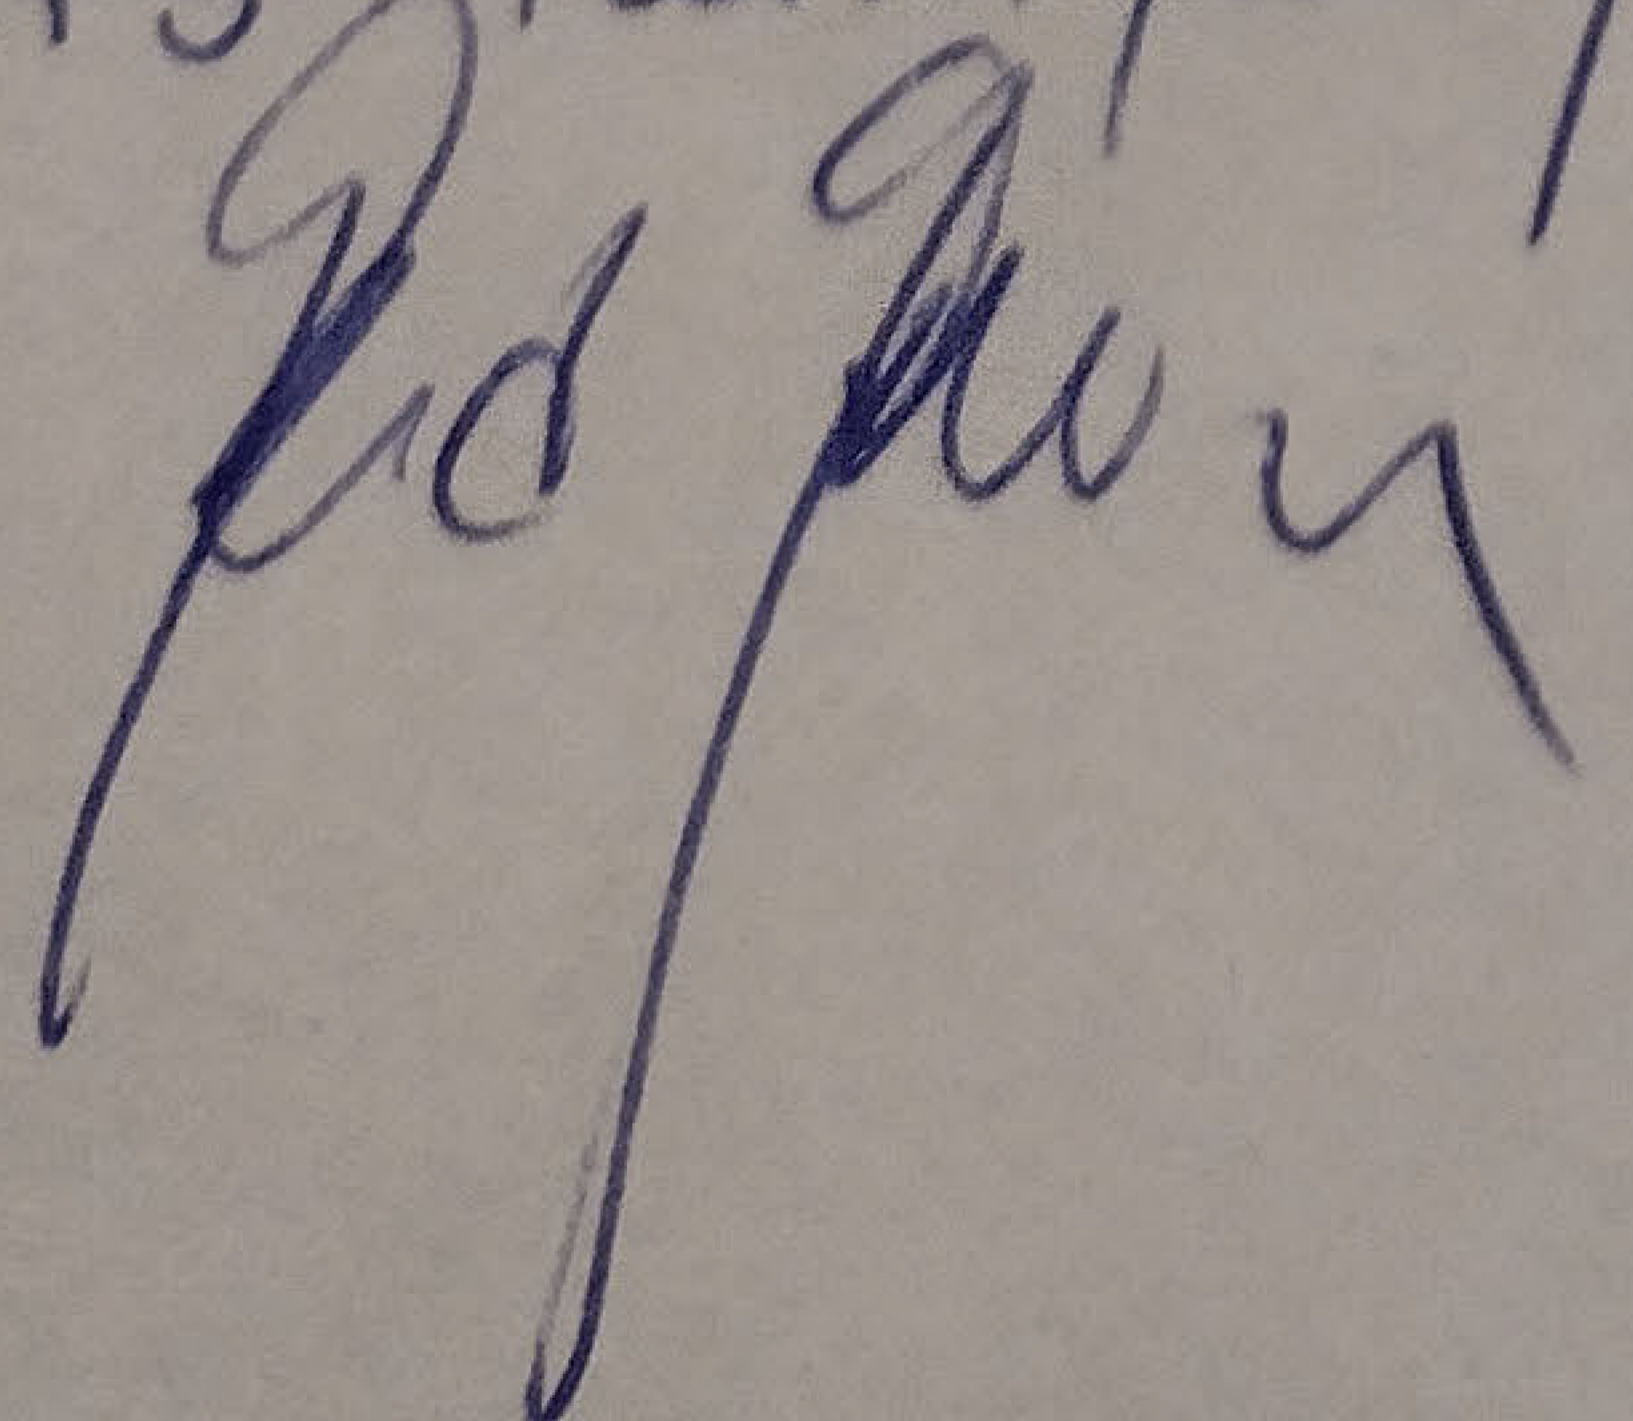

We Gerd + Helga Albers from:

fully support the local Councillors from the Glenties Electoral District and other parts of Donegal, who have proposed that the Gweebarra River Valley, Areas of Especially High Scenic Amenity including St. John's Point, areas prone to landslides and our Freshwater Pearl Mussel River catchements will be EXCLUDED from areas open to wind farm development in the 2018-2024 and 2024-2030 County Donegal Development Plans.

We wish to keep our traditional small farming community as it is and we don't want the area to be industrialised. We trust the Council Planners will heed our wishes.

Yours Faithfully

 Helga Albers
