Date: 9<sup>th</sup> April 2020

**Re. Proposed Variation to the Donegal County Development Plan, 2018 – 2024, in respect of the TEN-T Priority Route Improvement Project, Donegal**

Dear Sir/Madam,

The NTA acknowledges receipt and welcomes referral of the Proposed Variation to the *Donegal County Development Plan, 2018 – 2024*, in respect of the TEN-T Priority Route Improvement Project (PRIP).

The NTA supports provision made to facilitate and provide for the Donegal TEN-T PRIP giving effect to *National Planning Framework* National Strategic Outcome No. 2 'Enhanced Regional Accessibility'. The TEN-T PRIP also gives effect to development objectives included in the National Development Plan, 2018 - 2027.

It is noted that while other transport issues, such as the location of the proposed Transport Interchange Hub, while not the subject of this Variation remain unaltered on Map 12.3 Letterkenny Transport Map which is the subject of other proposed amendments. It is hoped that the specific location of a Transport Interchange Hub for the town of Letterkenny will be considered in more detail as part of the preparation of the ongoing Letterkenny Local Transport Plan and Local Area Plan process and an appropriate location for an interchange can be determined in conjunction with an assessment of the provision of both local and regional bus services for the town.

Kind regards,

A handwritten signature in black ink, appearing to read 'Michael MacAree', is written over a horizontal line.

---

Michael MacAree  
**Head of Strategic Planning**
