RH-P-5 Area Under Strong Urban Influence

It is a policy of the Council that where an individual has demonstrated that they need a new dwelling house in a rural area defined as Area Under Strong Urban Influence (see Map 7), it may be favourably considered for those individuals who can provide evidence that they, **or their parents or grandparents, have resided at some time within that rural area** ~~or their parents, have resided in these areas~~ for a period of at least 7 years. **The foregoing is** subject to compliance with other relevant policies of this plan, including RH-P-1 and RH-P-2. Holiday home development will not be permitted in these areas.
